

Thrive to Five

Child Care Guidelines

1

Child care will have a capacity of 8 children, ages 3 to 5 years old, during an in-person, parent-only class. All children in child care, will be required to wear their own mask as provided by the parent.

2

A maximum of 2 children per parent will be allowed in child care until capacity has been reached.

3

Parents will need to follow social distancing guidelines (6 feet apart) while signing in/out their children at the table outside the Child Care Room. Parents will not be allowed in the Child Care Room.

4

Water bottles for children will be available throughout the duration of the class. Snacks or personal items for children will not be permitted in the Child Care Room.

5

Once in child care, children will be instructed to wash their hands. All staff and children in the Child Care Room will be required to wear masks; therefore, social distancing practices will not be required.

6

Parents who are interested in attending an in-person, parent-only class with their child in the classroom will need to make a request to Thrive to Five staff at the time of registration.

7

All tables, chairs, and toys used during child care will be disinfected by Thrive to Five staff before and after use.

8

Registration for child care is required when registering for an in-person class. Walk-ins will not be permitted.

9

Anyone who does not agree to adhere to these guidelines is encouraged to explore our available online classes.

If you or your child do not feel well, please stay home!
