

# Thrive to Five

## In-person Class Guidelines

All visitors, with the exception of children ages 0-35 months, will be required to provide and wear their own mask throughout the duration of the class.

In-person classes may take place either outside or indoors depending on the class.

All families attending an in-person class will need to follow social distancing guidelines (at least 6 feet apart) to maintain the health and safety of all visitors, instructors, and staff.

Each family will have their own table with supplies for the class. Sharing supplies with other families is not permitted. All tables and chairs will be disinfected by Thrive to Five staff before and after use.

Adults will be responsible for keeping their own children at their table and socially distanced from other families and children.

A maximum of 5 families will be allowed in each in-person class. A family will consist of no more than 1 adult and 2 children ages 0-5 years old. School-aged children will not be allowed at this time. A maximum of 10 adults will be in CPR and First Aid classes.

Attendance to our Thrive to Five classes will be tracked by one of our Parent Trainers. Upon entry to the class, please let a Parent Trainer know the names of those in your family.

Registration for classes is required. Walk-ins to our in-person classes will not be permitted.

We will have feedback slips and referral forms available for families who have questions or requests regarding community resources. Please allow 3-5 business days for our Parent Trainers to contact you to discuss your needs.

Anyone who does not agree to adhere to these guidelines is encouraged to explore our available online classes.

**If you or your child do not feel well, please stay home!**
